

QUICK Star

Compact cloth disc abrasives.

- A finish of the wood without sanding fibres
- For a better finish on complicated profiles
- Ideal for small components
- Long working life
- Quick Star discs are ideal for the pneumatic hand tool F3
- Available in 2 sizes of external diameter: 140mm and 180mm
- Inner diameter 50 mm, or 50mm hexagonal hole
- As a single abrasive face the Quick Star can be mounted in a variety of ways

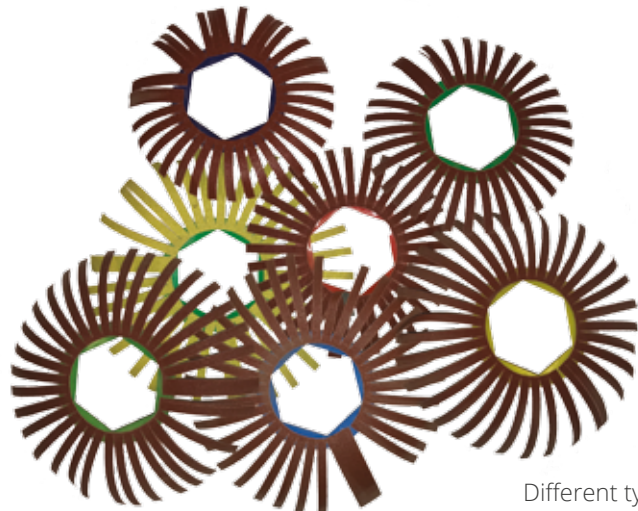

BRUSH CHARACTERISTICS

Quick-Star abrasive disks have an outer diameter of \varnothing 140 or \varnothing 180. They must be mounted on a hexagonal key 50 which, on request, is provided by Quickwood with special cylindrical holes. The thickness of each disk is 2.5 mm, and it can be mounted back against the face or back against the back.

If you don't want to cover the whole length of the shaft, you can use a spacer tube that is also supplied on request at the desired length.

Color	Types of grits
Red	80
Green	100
Yellow	20
Purple	150
Blue	180
White	220-320
