

TERSA® R2000 heads

Available in diameters:

- Ø 100 with width up to 240mm Z=4
- Ø 125 with width up to 250mm Z=4
- Ø 140 with width up to 260mm Z=4

The heads are supplied with knife-holding closing tabs

LOCKING SCREWS MUST NEVER BE REMOVED.

The head would be damaged beyond repair!

CAUTION:

on the R2000 TERSA® heads the total length is 5mm longer than the length of the knife.

The R2000 centrifugal locking TERSA® head renews the reed head concept, offering greater performance to professionals in the sector.

R2000 TERSA® head, available in **Avional 2/2** or steel is adaptable to all machines and guarantees efficient and long-life planing.

EACH HEAD IS SUPPLIED COMPLETE WITH:

- 1 set of HSS knives
- 1 hammer for unlocking knives
- 1 technical sheet

For lengths other than those listed in the price list, there is a 30% surcharge.
