

cut-off saw **formula** **cut 350**

formula		cut 350
Work table height	mm	800
Blade diameter	mm	350
Max. cross-cut capacity	mm	210 x 30
Max. working pressure	bar	8
Air consumption	l/cycle	6
Exhaust outlets diameter	mm	80
Three-phase motor power	kW /Hz	3 (3) / 50 (60)

cut-off saw operating groups

The best cleaning

Exhaust outlets

The exhaust outlets positioned near the dust evacuation areas ensure a fully cleaning of the working environment.

Absolute safety

Blade guard

The blade guard and the other operator's protection systems, as the bi-manual hand-safety control, allow to operate with absolute safety.

Smart solutions

Stops and pneumatic positioning

The machine is equipped with intelligent solutions as the optional stops and the pneumatic positioning.
